4. Test Coverage

Requirements Coverage: 10 out of 10 covered.
Code Coverage (if available): 0%
Business Scenario Coverage: 100%

5. Observations

Registration form lacks proper validation for alphabets in first name field.

Login flow behaves differently on mobile vs laptop, leading to inconsistent user experience.

6. Risks & Issues

Risk/Issue Description	Impact	Status	Comments
Invalid registration data due to numeric first name.	Medium	Open	Can cause incorrect user records.
Inconsistent login experience across devices.	Medium	Open	May confuse users during authentication.

7. Recommendations

Add input validation to restrict first name field to alphabets only.

Standardize login behaviour across devices (mobile & laptop).
